Dear Paul,

Herewith or soon I will be sending you the additions to ch 18 for suggestions.

These require renumbering, which may be a little confusing, but I think you'll make it out okay.

Risking carrying coals to Newcastle, in further comment on my yesterday's suggestions on the integrity of the DJ word, of that of individuel lawyers on its staff from the AG down, note beginning on p. 523 how dishonest they can be in even public statements, how they are unabashed in lying, with their bare faces hanging out (save where they are anonymous, when their faces still show to their friends in the press).

Sincerely,
